

Libra@Home

Realizing the full potential of physical therapy

Products Overview

LibraVR

**the virtual-reality-based
platform promoting
neuroplasticity
in patients with
neurologic impairments**

LibraVR™ enables effective therapy at the clinic and extends it to the patient's home.

Vestibular, Balance and
Oculomotor disorders.

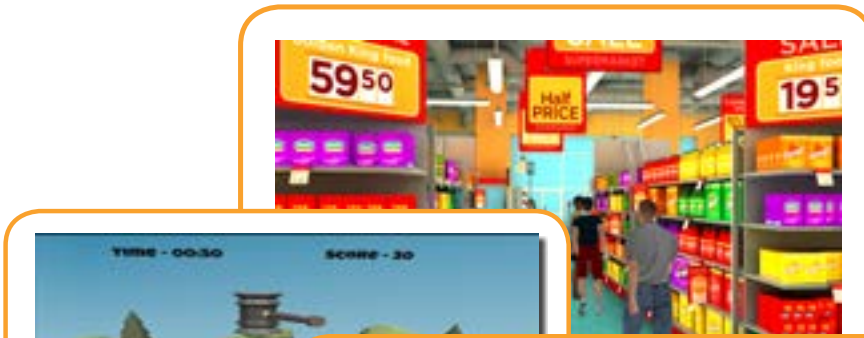

Why LibraVR?

**Virtual Reality Platform
Created based on over 15
years of research by a team of
world-class neuroscientists,
physicians, therapists,
engineers and business
professionals.**

- **Objective, accessible record** of what was previously performed
- **More engagement** through interesting and interactive exercises and games
- **Customization** of patient's therapy through a wide variety of parameter modifications
- **Better monitoring** of patient's effort and progress
- **More efficient** to more effectively utilize patient downtime and home treatment
